DETAILED ACTION

Acknowledged Receipt

Receipt is acknowledged of the changes to the drawings, specification, claims, translated priority document, and the remarks related to the previous rejection, all of which were filed on 11/24/2006. The above have been considered and entered.

Terminal Disclaimer

The terminal disclaimers filed on 11/24/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patents granted on Application Numbers 10/535823 and 10/535951 have been reviewed and are both accepted. The terminal disclaimers have been recorded.

Priority

The English translation of the priority document and the statement that the translation is accurate have been reviewed. It is determined that Applicant is entitled to the earlier foreign priority date. Consequently, the 102(e) rejection to Inoue is withdrawn.

Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 4, 7, and 8, the prosecution history, especially at the previous Remarks by Applicant (11/24/2006, page 5) clearly indicates the reasons for allowance.

Art Unit: 2879

Specifically, the prior art fails to motivate or disclose a PDP having a protection layer covering a dielectric layer, the protection layer being made of MgO including carbon and silicon, in combination with the remaining limitations of the claims. The Examiner notes that the closest prior art, JP 11-339665 to Watabe et al, has a protection layer on a dielectric layer that is extremely similar to Applicant's. However the protection layer is made of MgO and silicon, it does not have any carbon component. No motivation exists to add carbon to this layer.

The remaining claims are allowable due to their dependency.

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter J Macchiarolo whose telephone number is (571) 272-2375. The examiner can normally be reached on 8:30 - 5:00, M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nimeshkumar D Patel can be reached on (571) 272-2475. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
